To Whom It May Concern:

I am writing this letter as a reference for Oluwademilade Adisa (Dammy) and to support his application to UPEI's tutoring program. I have known Dammy for one year. I taught him in Computer Science II (CS 1920) and am now teaching him in Computer Science III (CS 2910). Dammy is in the top tier of academic students in all sections of the courses I have taught him in.  Computer Science II is a first year course with approximately 80 students through all sections. Outside of his strong academic performance Dammy was a pleasant student who regularly participated in class and was in regular contact during my office hours.

Dammy displayed exceptional interest and motivation to solve the problems posed in class, he presented strong interpersonal skills and strong academic skills during his time in my course. I believe these skills and characteristics will make him a valued contributor to the tutoring program at UPEI and I recommend him for acceptance into the program.

I am happy to discuss this further or to answer any questions.

Sincerely,

Andrew Godbout
Assistant Professor, UPEI - SMCS
